

Return to School

Frontier School will be open to in-person learning as much as is practical. When regularly open students may wear masks or may choose not to wear masks. Any negative comments made regarding either wearing or not wearing masks will be considered bullying and a behavior referral may be issued. In a week returning to school after Covid cases were present in the school, it is asked that all wear masks. If parents object in writing this will be waived.

When out distance learning, students will work on paper packets or on line or a combination of both.

Input will be sought by parents and employees of the district through Google surveys posted on our website and on Facebook as well as in public comment at School Board Meetings.
